

## POWER LINE COMMUNICATIONS TEST

New PROPOWER range is made up of two basic elements:

- PLC Spectrum Analyser
- PLC test signal Generator

All instruments have been designed for field use and combined use allow to test the network response to PLC test signals.

### PROPOWER 5

#### ■ PLC Spectrum Analyser

Freq. Range: 1 - 50 MHz  
Power: From -90 to 10 dBm  
Resolution: 200 kHz  
Spectrum Mode / Tilt Mode  
Data Acquisition  
Handheld.

### PROPOWER 1

#### ■ PLC Noise Generator

Freq. Range: 1 - 50 MHz  
Power: 5 dBm  
Handheld.
